

Custom Modular Buildings for a Comfortable Work Environment

 **CLIENT**
Porirua City Council

 **LOCATION**
Porirua

 **NUMBER OF MODULES**
4

 **TIMEFRAME**
23 months approx.

The purpose of these buildings was to provide dedicated spaces for meetings, hot desking, kitchen facilities, locker rooms with showers, and additional toilets. The delivery and installation process was critical to the success of the project. Although we did not handle the installation directly, we worked closely with the Council and their contractors to ensure a seamless process. Maintaining open lines of communication with the Council and contractors was key. This ensured everyone was on the same page and minimised potential delays.

The delivery of these modular buildings successfully addressed the need for a more comfortable and functional work area, providing a range of facilities that improved the working conditions for the staff. By maintaining excellent communication and showing flexibility in our approach, we ensured that the project met its objectives and was completed to the satisfaction of all involved.

This project highlights our commitment to delivering high-quality, tailored modular solutions that meet the specific needs of our clients, supporting their operational efficiency and employee satisfaction.

- 6.0 x 3.0 – Meeting/Hot Desk Office
- 4.8 x 4.8 – Meeting Room/Kitchen
- 6.0 x 3.0 – Locker Room with Shower
- 3.6 x 3.0 – Toilets for the outside of the existing shed area (later moved to the main new area)
