

Rapid Response, Seamless Setup

CLIENT
HEB

LOCATION
Orakei, Auckland

NUMBER OF MODULES
4

TIMEFRAME
2 years

Portacom was engaged to provide a secure, functional site setup for Auckland Transport and HEB Construction as part of the Orakei Park n Ride redevelopment. The challenge? A tight, cliffside site adjacent to rail lines that demanded a quick turnaround, expert coordination, and safe installation under complex conditions.

Within just five working days of order confirmation, Portacom delivered and installed the required modular buildings. Despite transport delays and a few curveballs - like a building arriving without keys - our team worked swiftly with locksmiths, subcontractors, and site managers to get the job done, on time and under budget. We also tackled safety requirements head-on, including working at heights and operating near active train lines.

This project is a testament to Portacom's responsive service and collaborative approach. With smart planning, on-site problem solving, and clear communication between Portacom, HEB Construction, and subcontractors like Trade Assist, we delivered a secure, compliant compound that met every requirement.

Solution

- 12x6m Open Plan Office
- Meeting Room 6x3m
- Ablution 4.8x3m
- Container 6x2.4m
- Split system A/C
- Hot Water Dispenser
